

**Annex 1 – Areas of intervention and interest of Donors**

<b>Areas of intervention</b>	<b>Remarks</b>	<b>FAO</b>	<b>USAID</b>	<b>SWISS</b>	<b>UNDP</b>	<b>KfW</b>
Land consolidation	After the completion of MAINLAND project there is a need of a new donation in order to progress this process. Probably for the time being, it is necessary that the team working on land consolidation consolidate its experience. Abandon land is an important problem to be better addressed.	<b>Objectives:</b> <b>Results:</b> <b>Timing:</b> <b>Indicators:</b> <b>Value of the programme:</b>	<b>Objectives:</b> <b>Results:</b> <b>Timing:</b> <b>Indicators:</b> <b>Value of the programme:</b>	<b>Objectives:</b> <b>Results:</b> <b>Timing:</b> <b>Indicators:</b> <b>Value of the programme:</b>	<b>Objectives:</b> <b>Results:</b> <b>Timing:</b> <b>Indicators:</b> <b>Value of the programme:</b>	<b>Not directly tackled but important because of more efficient irrigation</b>
Rural development Cooperatives Extension services	LEADER approach to be promoted, as proposed by USAID. I would add that the LEADER	<b>Objectives:</b> <b>Results:</b> <b>Timing:</b> <b>Indicators:</b> <b>Value of the programme:</b>	<b>Objectives:</b> <b>Results:</b> <b>Timing:</b> <b>Indicators:</b> <b>Value of the programme:</b>	<b>Objectives:</b> <b>Results:</b> <b>Timing:</b> <b>Indicators:</b> <b>Value of the programme:</b>	<b>Objectives:</b> <b>Results:</b> <b>Timing:</b> <b>Indicators:</b> <b>Value of the programme:</b>	Not directly tackled but capacities of the AC's in charge for irrigation within the Southern

	<p>approach could help switching from a rural development centered on agriculture into a rural development centered on rural areas (i.e. inclusion of other activities). It seems that a new National Strategy on Rural Development is needed. Number of farmers receiving support should decrease.</p>					<p>Vardar Valley Programme is strengthened</p>
<p>Water management</p>	<p>Current situation in irrigation sector is not satisfying; there is no enough data, no measuring instruments, not even information about the</p>	<p><b>Objectives:</b> <b>Results:</b> <b>Timing:</b> <b>Indicators:</b> <b>Value of the programme:</b></p>	<p><b>Objectives:</b> <b>Results:</b> <b>Timing:</b> <b>Indicators:</b> <b>Value of the programme:</b></p>	<p><b>Objectives:</b> <b>Results:</b> <b>Timing:</b> <b>Indicators:</b> <b>Value of the programme:</b></p>	<p><b>Objectives:</b> <b>Results:</b> <b>Timing:</b> <b>Indicators:</b> <b>Value of the programme:</b></p>	<p><b>Programme:</b> <b>Southern Vardar Valley Irrigation Programme</b> <b>Objectives:</b> <b>improved services for the final users</b> <b>Results: Water</b></p>

	<p>irrigated areas and the reason why farms in irrigated areas are not under irrigation. And that is an existing problem since 20 years and more. What is needed at the moment is to find the reason behind all these problems and where to go next, to talk to farmers, to educate them, to elaborate the new modern irrigation systems (ex. Strezhevo). New technologies are necessary. However the lack of data about things happening in the irrigation sector is the</p>					<p>for irrigation in the affected areas  365days/year  Timing:2003-2020  Indicators: from the Programme LFM  Value of the programme: EUR21 million</p>
